Productivity Tool

6. PT -Sharing large files

This one is a unique service which you can use to send large files (upto 150 MB) to anyone

Unique because:

1. No software; it works from browser window

2. It will be available for 24 hours for download- twenty times

3. Your file is protected by 256-bit AES SSL encryption! (of course for this you need to pay!)

If you need more capacity, you can register to get 300 MB and 48 hours free!

Or pay $4.95 /month for 2GB /2 weeks for FTP also!

How it works:

- Enter recipient email id

- Choose a file

- Send!

It is as easy as that-

Load it, send it and forget it!
