11.PT.Tool for Virus control

Using this tool:
http://www.superantispyware.com/portablescanner.html

-

You can rid yourself out of infections in your PC

what is more important: This is a portable version.

This Anti spyware can run from a flashdrive.

This detects and removes over 1,000,000 spyware and malware infections.

It does not have to be installed /uninstalled.

You do not need internet access.

It is free for personal use.

Just download and put it on your pen drive and hope you don't have to use it.

Recommended by Bnet.

Please remember: There is no substitute to a good anti-virus program.

This is a temporary arrangement.

Please also note that the ubiquitous USB was a major source of data loss and loss of data confidentiality in 2009.
